In the land of make believe anything can happen! Fairy Tales do make us believe just that. It also makes children use their imagination. Fairy Tales take us to many places that we wouldn't be able to visit just for fun! Kids love magical-mystical happenings. Remember the mean step-mother in Cinderella! In this day and age most step-mothers are warm, kind and loving. What would occur in the story if Cindy's mother wasn't so self-centered and mean?

Come and join us today! Let your child experience and travel into the story of CINDERELLA and HANSEL & GRETEL

What's more?

Story telling, Gingerbread House, handicraft, drama, music & movement and lots more!
